Social skills and competences

- Collaboration with teachers and pupils at multicultural schools (see below – Projects: “Framgångsalternativ” & “Skolintegrationsprojektet”).
- Collaboration with practitioners working in areas characterized by multiculturalism and social exclusion (see below – Projects: “Citispyce”, “New City: Följeforskning” “SÖM Fosie: Följeforskning”, “Levnadsundersökningen 2006-07”, “Young people – from exclusion to inclusion”, “ELIPSE”, “Framgångsalternativ” & “Levnadsundersökningen 1995-1998”).
- Collaboration with youths with many different ethnic backgrounds (see below – Project: “New City”, “Skolintegrationsprojektet”).
- Collaboration with unemployed adults with many different ethnic backgrounds (see below – Project: “Levnadsundersökningen 1995-1998”).
- Collaboration with practitioners and researchers from other countries in European projects (see below – Projects: “Citispyce”, “ComIn”, “Social Polis”, “Connections”, “Young people – from exclusion to inclusion”, “ELIPSE” & “Local partnerships & neighbourhood management”).
- Living and team working with residents in a multicultural environment: Chairman between 1992-2005 in a co-operative housing association (where I live with my family), situated in a part of Malmö characterized by a multicultural environment and social exclusion, consisting of 31 households, where the members / residents work voluntarily in teams with maintenance, gardening, economy, leisure activities, culture, IT-communication (social economy).
- Various experiences from working life: Youth leader (fritidsledare) at several youth centres (in total, 12 months), teacher at schools, both primary and upper secondary (in total, 12 months), porter at mental hospital (8 months), maintenance worker at elderly people’s home (6 months), catering assistant at ferries (4 months), newspaper distributor (3 months). Also experiences of unemployment.

Organisational skills and competences

- Project experiences (see annex below). Of the 30 research and development projects I have taken part in since 1986, I have had a leadership (project and/or research) position in 21. Several of these projects have included tutoring of practitioners, students and/or other researchers, in Malmö as well as nationally and internationally.
- In the FP7 project Citispyce (2013-15), I have led one of the work packages.
- As a thematic expert (2008-13) in URBACT 2, I was in charge of designing the conference in Malmö of the CoNet project, in June 2009, which included tutoring two research students in writing pre-review reports as well as writing a post-review report and a thematic report.
- As a thematic expert in URBACT 1, I was in charge of animating the national URBACT seminar in Malmö on the theme of “Young people”, in November 2007, which included writing a preparatory report, making a presentation at the seminar and writing a final report.
- As a thematic expert in URBACT 1, I was responsible for preparing a workshop on the theme of “Cities and young people” at the Stockholm Urban Futures 2.0 Conference, organised jointly by the European Commission, the Swedish Government and the City of Stockholm, in May 2006, which included the preparation of a background paper with key questions, presenting the report as well as the key questions at the conference and writing a final report.
- As a thematic expert (2004-07) in URBACT 1 on the themes of “Young people”, “Social exclusion” and “Citizen participation”, I was in charge of the international seminar on “Young People” in Copenhagen, June 2005; an event which involved 24 representatives from 18 cities and 9 countries. I had the responsibility to organize, prepare, coordinate and monitor the event as a whole, which included the writing of a preparatory as well as a final report, published at the URBACT web page.
- I was part of the team that planned and organised the 22nd Nordic Sociology Congress 2004, held in Malmö and with more than 300 participants. The preparatory work started 1,5 years before the congress in August 2004. Among other things, I became responsible for collecting all the abstracts and compiling them to a book, designing and web mastering the congress web page, and writing an introductory booklet on Malmö called *Transformations – Boundaries – Dialogues. A perspective on Malmö in 2004*.
- I was part of the team that planned, organised and started the department of IMER (International Migration and Ethnic Relations) at Malmö University during 1997-99.
- I was chairman during 1992-2005 of a co-operative housing association (see above).

Technical skills and competences

- Excellent skills in MS Word, MS Excel, MS Outlook and MS PowerPoint.
- Basic skills in HTML, Internet design and Photo-Shop: Most of my technical skills I have acquired gradually mainly by myself but building on my four years of Engineer education. I've also used these programs and skills in many projects during the last 15 years (see also my web page: www.mikaelstigendal.se)

Artistic skills and competences

- Music: Basically, I regard myself as a musician as I learned how to play during my youths, in particular guitar, but I have also made a lot of music compositions. This competence has been very useful for me in several ways, for example in understanding how young people express themselves, their cultures and ways of living.
- Writing: I have published many reports, articles and books (see annex below).
- Photo: I have for decades taken photos of environments, situations, conferences and people which has become a valuable resource for lecturing, (PowerPoint), projects and books.

Teaching and education skills

- Several of the projects where I have had a leadership (project and/or research) position, amounting to 21 projects so far, have included tutoring of practitioners, students and/or other researchers, in Malmö as well as nationally and internationally.
- I was part of the team that planned, organised and started the new institution IMER (International Migration and Ethnic Relations) at Malmö University during 1997-99. Furthermore, I was in charge of pioneering courses at different academic levels.
- Several of the projects mentioned below have included an education of the participants, in particular "Levnadsundersökningen av Malmö 1995-98 (The Study of Living Conditions in Malmö)", "Skolintegrationsprojektet (The School Integration Project)" and "Levnadsundersökningen av Fosie 2006 (The Study of Living Conditions in Fosie)". The educations have been tailor-made to fit the needs of the participants on the basis of their tasks in the project but also with regard to their future careers. Assessments have been made at the end of the projects. In the project "Levnadsundersökningen av Fosie 2006 (The Study of Living Conditions in Fosie)", the education was formally designed and approved as a course at Malmö University in the subject matter of Urban Integration.
- All the projects mentioned below in the annex have included lectures by me. The most demanding have been the ones at international conference when I have had to prepare a lecture during night-time, summarizing and responding to previous discussions and workshops.
- Since 2005, I have given more than 100 lectures at conferences and before that many more during the last 20 years.
- Since 2005, I have been a keynote speaker at more than 20 major conferences, of which some of them international and thus in English.
- Over the years, I have tried out and developed many different forms and methods of teaching, like lecturing, workshops, seminars, group work of different kinds, web platforms. I regard myself as particularly well skilled in using PowerPoint due to almost 20 years of usage.
- I have produced a lot of teaching material with regard to the participation-oriented projects, in particular the ones that have included an education (see above). Furthermore, several of my books have been used frequently in courses across Sweden, in particular "Allt som inte flyter", "Framgångsalternativ", "Den gode socialvetenskaparen" and "Sociala värden i olika sociala världar".
- I have designed the University course *Urban Integration*, held for the first time in 2009 and for which I was responsible during the first three years.
- For a couple of years around 1980, I was a teacher at schools, both primary and upper secondary (in total, 12 months).

Driving licence

- Yes

Additional information

- Commissioner in the Commission for a socially sustainable Malmö (2011-13) and co-editor of the final report.
- Thematic expert (2008-13) in URBACT 2 on the themes of "Integrated development of deprived areas and areas at risk of deprivation" and "Social inclusion".
- Member (2008-2010) of the Inner Circle of stakeholders in the EU-project Social Polis (FP7).
- Member of the steering group (2006-2008) of the research network Urban Studies at Malmö University which led to the establishment of the department of Urban Studies.
- Representative of Sweden (November 2006) on behalf of the Swedish ministry of Education, Research and Culture at the expert meeting in The Hague on the OECD report "Where Immigrant Students Succeed".
- Thematic expert (2004-07) in URBACT 1 on the themes of "Young people", "Social exclusion" and "Citizen participation".
